

The Pacific Northwest Dental Conference has taken its place as one of the premier dental conferences in the country. We are proud of that achievement and work very hard to continue to improve our meeting.

Our goal is to provide a multitude of educational opportunities all in one place for the entire dental team. We hope to send every attendee home with newly learned clinical techniques, practical information on state-of-the-art materials and supplies, and improved practice management skills.

Outstanding special events at this year's PNDC include featured speaker Dr. Sally Ride, America's first woman in space, the Staff Appreciation Luncheon with Connie Podesta and the President's Welcome Reception featuring wonderful hors d'oeuvres Pacific Northwest style.

A limited number of tickets are available for the Mariners' home games against Oakland on Wednesday and Toronto on Thursday and Friday evenings at Safeco Field.

Other travel and entertainment opportunities include cruises to the San Juan Islands or to Alaska and a performance by the Cirque de Soleil.

Our Exhibit Hall once again will offer the largest hands-on display of technology and services anywhere in the Pacific Northwest.
